1 Introduction

2 Building the Coauthor Network of Erdos1 Authors

2.1 Tools Used for Data Extraction and Network Visualization

2.1.1 RStudio

2.1.2 Cytoscape

2.2 Extracting the Erdos1 Subnetwork

2.3 Graphing Erdos1 Subnetwork

2.4 Influence Measures Of Erdos1

2.5 Limitations of this Model

3 Construction of Article Networks

4 Pagerank Algorithm for Directed Graphs

4.1 Applicability

4.2 Implementation

4.2.1 Applying Pagerank to Article Network 1

4.3 Thorny Issues With Pageranking Articles

4.4 Attempts to Patch Article Pagerank Method

4.4.1 Using Another Variation of Pagerank

4.4.2 Perron-Frobenius Theorem

5 New Algorithm for Ranking Articles

5.1 Implementation

5.2 Circumventing Dangling Nodes and Those with Zero Indegree

5.3 Conclusions Regarding Influential Nodes in Article Network 1
